Issue	8		

Our Vision

A world where all children and young people can play together, freely.

Our Mission

To provide truly inclusive, fun and safe places where all disabled children and young people can spend time with their friends.

To offer a positive impact for families and the wider community.

The Challengers Approach

Truly Inclusive

We will never exclude a child or young person from our services.

We adopt and promote the Social Model of Disability and we believe that society should be committed to developing both inclusive attitudes and practical strategies.

We empower our communities of staff, volunteers, trustees, families and supporters to be confidently inclusive.

We welcome and support anyone to attend our schemes, regardless of their impairment, financial circumstances or geographical location.

Serious about Play

We know that play is essential for learning and developing skills, and that children and young people require access to a range of activities in order to reach their full potential.

We ensure that play is at the heart of everything we do, enabling children and young people to have fun, socialise and experience new things, whilst feeling confident and comfortable to be themselves.

Person-centred

We celebrate individuals for who they are and respect their identity, needs, wishes, choices, beliefs and values.

For our children and young people this means we provide a high-quality service tailored to their needs and give them freedom to shape their experience at Challengers.

For our teams this means giving individuals responsibility, encouragement, flexibility and the opportunity to be creative and help develop their roles.

For our supporters this means we make sure we manage our resources responsibly and consider the impact of our fundraising decisions on beneficiaries, donors, supporters and the wider public.

Trustworthy

We build trust through positive relationships and effective communication with our communities.

We know that the quality and safety of our service is essential, and so we implement a rigorous safer recruitment process and extensive training and development programme.

We uphold the highest ethical and professional standards and approach our working practices with honesty, decency and transparency.

Ambitious Together

We know our service is a lifeline to families and therefore we are committed to engaging with our children, young people, families, staff and volunteers to improve, grow and exceed expectations.

We encourage collaborative working across our communities in order to achieve our shared goals and influence societal change.
